

BRITISH STANDARD 4800 / 5252 Colour Chart

The British Standard BS 4800 specifies colours of paint for building and construction works. This is a key reference for specifying a particular paint colour to use in the refurbishment of buildings – especially at Local Authority level or for major works, such as office blocks, airports, schools and hospitals. The colours depicted on the chart are for guidance only. The displayed colour will depend on your monitor and browser. Pearl or metallic colours cannot be shown adequately. The finished colour, therefore, may not be as shown here.
